

Over one thousand providers have shared their views with us already – have you?

The NDIS Disability Support Providers Survey

Whether or not the NDIS has started in your area we want to know your views.

You can help inform the future shape of the NDIS.

Your response will help us build an accurate picture of how the disability sector looks today, and how it may be changing.

Survey packs have been sent to disability support providers and their employees in NDIS Trial Sites *and outside* of Trial Sites within NSW, Queensland, Victoria, South Australia, Tasmania, and the ACT.

There is a survey helpline (toll free) 1800 559 104 for the duration of the survey.

You can find more information online at <http://www.ndisevaluation.net.au>.

The NDIS Evaluation is a major project undertaken by Flinders University between 2013 and 2016.

The Australian Commonwealth Department of Social Services has commissioned this project to monitor how the NDIS trial is doing.

You can complete your questionnaire online - instructions are included in your survey pack.

- **Please get involved and complete the questionnaire**
- **Please encourage your workers to respond too**
- **All information provided to us is private & confidential**

Thank you for helping to make this survey and the independent NDIS evaluation a success!

Ethics approval

This research project has been approved by the Flinders University Social and Behavioural Research Ethics Committee (Project Number 6227).
